Chronic Illness Benefit 2017

Important information you need to know

The Discovery Health Medical Scheme Rules set out the requirements for the Chronic Illness Benefit (CIB). The utilisation of the benefits and programmes associated with the Chronic Illness Benefit is subject to specific conditions and rules. Members must ensure that they are familiar with these rules and conditions. The scheme rules are available on www.discovery.co.za

Any instruction or advice we give about medicines and the management of the member's condition is intended as a supplement to, and not a substitute for, the knowledge, expertise, skill and judgement of the member's doctor, pharmacist or other healthcare professional.

Discovery Health Medical Scheme reserves the right to change the benefit at any time. We will communicate any changes to the way we pay medicines when we make these. The updated version of this document is available on our website at all times.

The Chronic Illness Benefit (CIB) covers a comprehensive list of chronic conditions that includes asthma, diabetes, high cholesterol and high blood pressure. The Chronic Disease List (CDL) is a defined list of chronic conditions we cover according to the Prescribed Minimum Benefits.

You have full cover for approved medicine on the Scheme's medicine list or up to a set monthly Chronic Drug Amount for medicine not on the medicine list. The Chronic Drug Amount is a monthly maximum amount we pay for a class of medicine. The Chronic Drug Amount does not apply to Smart and KeyCare Plans, you will have to pay medicine that is not on the medicine list.

About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

Terminology	Description
Benefit year	A benefit year refers to the benefits a member is entitled to during a calendar year, that is to say 1 January to 31 December. This medicine list (formulary) and Chronic Drug Amounts are applicable for 2017 only.
Chronic Drug Amount (CDA)	You get full cover for approved chronic medicine on our medicine list (formulary). For medicine not on the list, we cover up to a monthly rand amount called the Chronic Drug Amount (CDA). The CDA does not apply to Smart and KeyCare plans.
Prescribed Minimum Benefit (PMB)	<p>In terms of the Medical Schemes Act of 1998 (Act No. 131 of 1998) and its Regulations, all medical schemes have to cover the costs related to the diagnosis, treatment and care of an emergency medical condition, a defined list of 270 diagnoses and a defined list of 27 chronic conditions.</p> <p>To access Prescribed Minimum Benefits, there are rules that apply:</p> <ul style="list-style-type: none"> Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit conditions The treatment needed must match the treatments in the defined benefits You must use designated service providers (DSPs) in our network. This does not apply in emergencies. However even in these cases, where appropriate and according to the rules of the Scheme, you may be transferred to a hospital or other service providers in our network, once your condition has stabilised. <p>If your treatment doesn't meet the above criteria, we will pay up to 80% of the Discovery Health Rate (DHR). You will be responsible for the difference between what we pay and the actual cost of your treatment.</p>
Emergency medical condition	<p>An emergency medical condition, also referred to as an emergency, is the sudden and, at the time unexpected onset of a health condition that requires immediate medical and surgical treatment, where failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part or would place the person's life in serious jeopardy.</p> <p>An emergency does not necessarily require a hospital admission. We may ask you for additional information to confirm the emergency.</p>
Chronic Disease List (CDL)	A defined list of chronic conditions we cover according to the Prescribed Minimum Benefits.
Medicine class	This describes medicines that have similar chemical structures or similar therapeutic effects.
Active ingredient	This is the main substance in a medicine that is responsible for the clinical action on a human body.
